"Retirement: a time to do what you want to do, when you want to do it, where you want to do it, and how you want to do it."

-Catherine Pulsifer

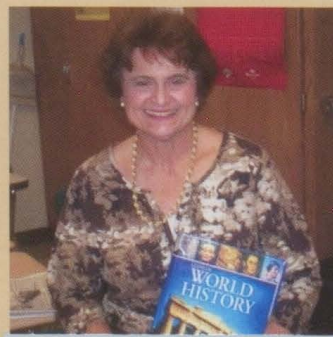

Mr. Hoppel

"When you get to a fork in the road, take it."
"I am there and I am taking it."

“ People have told me that I would know when the time was right. Six weeks ago I had no intention of retiring, but all the “doom and gloom” has dragged me down. I still believe that I can have a positive effect on young people, but I will shift to a grandparent’s point of view instead of in front of the classroom. ”

Retirement, Zara Anderson

Mrs. Corcoran

On retirement:
"I feel it is the right thing to do at this time after a teaching career of thirty-nine years."

“ I have most appreciated the affection and warmth shown to me by most of my students at ECHS. I've been able to "be myself" at school, and my students have accepted me as I am. Just as important, I feel blessed to have been part of a wonderful staff at ECHS. They are friendly, supportive, and dedicated to the betterment of our students. ”

Here's To Retirement

Not exactly retirement, but on another note, on July 1, Mr. Walker will become the principal at New Castle High School.

Mrs. Yates

On biology: "It is important because it affects everybody's life. You learn about the living world around you. Every aspect of biology deals with living organisms."

When asked what her favorite part about teaching biology was, she replied,

“ Being able to go outside and teach students about plants and animals. I love to watch students learn.

Mr. Austin

"I have served the district as superintendent for over 14 years. My favorite memory is being selected as superintendent in February, 1995. It has been an honor and privilege to be able to give back to my community as superintendent."

“ I will be retiring effective June 30, 2010 concluding 37.5 years of service to the school district. I am looking forward to living life at a slower pace and spending more time with my family.

Lars

Foreign

Lars Ruttkowski is the third foreign exchange student at our school. He is from Germany. He enjoys playing sports during his spare time. He loves football and hand ball. He also enjoys listening to music. He likes punk and reggae. The thing he likes most about Elwood is how open the people and students are. He says they are very nice and open with everything. His favorite food here is meatloaf. He misses his family and friends the most. When he gets back home, he will have three more years of schooling before college. He would like to be a medical doctor.

Shiori

Shiori Yamamoto is from Japan. She lives Miyagi, Japan. She came here to know a "usual" life of an American teen. She enjoys cooking with her mom in Elwood, although she misses her sushi from home. She enjoys listening to Avril Lavigne.

愛

Exchange!

Zhenghang Cui (affectionately called Henry), our other foreign exchange student, is from China. He lives in the biggest city (Shenyang, Liaoning) in North China with a population of 10 million people. He said class back home is much different than our school. He has to stay at school throughout the week. Then he is allowed to go home on weekends. He has 9 classes at his school. In his free time he likes to play videogames and watch cartoons. His favorite food in America would have to be the baked potato, but he says he likes everything. He said our school is more laid back. He misses practicing his martial arts. He will have two more years left after he returns to China before he graduates. He wants to attend college.
